

Campaigning for our precious natural environment

I'm proud to support Lib Dem policies to:

- Transform **water companies** into public benefit companies
- Provide a **fair deal for farmers** with a long-term funding guarantee
- Protect more land for nature and **increase wildlife habitats**
- Bring in an Environment and Wellbeing Budget to put **people and planet** at the heart of decision making

Listening to you

Thank you to everyone who completed my recent survey. You told me how important it is to campaign for our NHS and carers here in Truro and Falmouth. You want support for our LOCAL NHS- not a national campaign that gives more cash to the big cities. You also want more action on affordable homes and better protection for our precious natural environment here in Cornwall. I will always strive to listen to you and campaign on the issues you care about.

If you haven't yet completed my survey, please scan the QR code to do so now.

Democrats

Our NHS is at breaking point. More funding must come here to Cornwall

Our NHS is under immense pressure. Treliske is facing its most challenging financial target ever. It has been forced to make £28m of savings at a time when services are stretched to breaking point.

We have queues of ambulances outside A&E, older people not discharged because they can't get the support they need at home and children unable to see a dentist.

Patients and staff have been let down by a Conservative government which has not given the NHS the focus or the resources it needs.

As your MP I will be a tireless champion for our NHS. I will fight for our NHS to get the funding it needs so it is there for all of us, when we need it now and in the future.

Standing up for our carers

We can't fix the NHS without fixing social care.

As your MP, I will stand up for carers, whether it's making sure family carers get help and support, or campaigning for better pay for care staff to help plug the gaps in Cornwall's care system. I will campaign alongside the Liberal Democrat parliamentary team to bring about the changes to the care system that are so urgently needed.

My priorities for Truro and Falmouth

- Fighting for our struggling NHS & carers
- More housing for local people
- Bringing well-paid jobs to our area
- Opportunities for young people
- Protecting our natural environment

We need more homes for communities - not more profit for developers

Lack of affordable housing remains a huge challenge for people in Truro and Falmouth. House prices here are among the highest in the country relative to earnings. I will work with local groups to identify suitable sites for new affordable homes - which have the backing of the local community.

We need housing for local need, not developer greed.
